*Improve* the quality of your construction and your construction time. *Reduce* jobsite waste.

Our goal is to help you build better structures by providing you the best engineered building components in the industry and following up with unsurpassed customer support.

Engineered Open Web Floor Trusses:

- *Allows for greater span and loads than conventional framing.*
- *Provide ease of mechanical installations.*
- *Improve installation and overall construction cycle time.*
- *Less waste on jobsite.*

Engineered Roof Trusses:

- *Improve construction time cycles for roof framing.*
- *Greater flexibility in design of interior bearing walls.*
- *Ensures quality performance of roof structures.*
- *Less waste on jobsite.*

Our quality controls will assure that you receive products that meets/exceeds the standards required by Wood Truss Council of America (WTCA) and Truss Plate Institute (TPI).
